- Problem Solving
- Communication
- Self Awareness

TECH SKILLS

- PHP Program
- Flutter Program
- Web Development
- App Development
- MySQL

LANGUAGES

- Tagalog
- English (limited proficiency)

PROFILE

I am a Graduating Student Bachelor of Science in Information Technology (BSIT) student with hands on experience in developing mobile and web applications. Passionate about software development, I specialize in building functional and user-friendly systems using technologies like Flutter, PHP, and MySQL. I am eager to apply my skills in real-world projects and continuously learn to grow in the tech industry.

EDUCATION

Tayug National High School 2021–2022
High School Diploma

Bachelor of Science in Information Technology 2022 - 2025
School of Science | Panpacific University - Tayug

PROJECTS EXPERIENCE

JJ's Web System Management FEB 2025 - APR 2025
JJ's E-commerce web developed for managing an online clothing business. The system includes features such as product management, user authentication, order tracking, and an admin dashboard. The project streamlines business operations by providing an intuitive and responsive interface for both users and administrators.
Technologies Used: *HTML, CSS, PHP, MySQL*

ICAPTURE:Mobile Application for Efficient Examination and Analysis NOV 2024 - MAY 2025
ICAPTURE is a mobile-based OMR (Optical Mark Recognition) solution designed to scan and grade multiple-choice exams automatically. Using image processing and a predefined answer key, it evaluates results and stores data in SQLite. The app reduces human error and saves time, providing an efficient and accurate method for academic assessment.
Technologies Used: *Flutter, Dart, And SQLite*
